Creating conditions

BLOCK® is a respected multi-national group of companies. We have branches in 11 countries of the world and authorized partners in 39 countries. **We bring complete, functional, cutting-edge projects with a focus on advanced technology and clean rooms.** In the field of cleanroom implementation we operate since 1991. Since 2018 the BLOCK group includes the KÖTTERMANN company, a worldwide recognised laboratory furniture manufacturer with a history that goes back to 1946.

We are a design, engineering, project delivery, and implementation group of companies with an experienced team of technicians, technologists and engineers who manage and turn projects into reality. We offer our customers comprehensive services in project planning, manufacturing, construction and continued maintenance through our inclusive service plans. Our solutions guarantee optimization of capital and operating costs with a consistent emphasis on protection of the environment.

We provide projects for the pharmaceutical, biotechnological, healthcare, science and research, microelectronics, automotive industries as well as for other industrial facilities utilizing cleanroom technology.

Our implementations are strengthened by our own in-house production program. We are able to confine your production process to an isolator/RABS with solutions designed and manufactured by our team.

Perfect results need perfect conditions

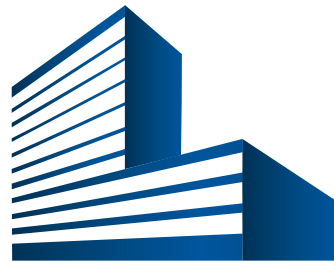

Perfect results need perfect conditions, so it is our aim to give you perfect workspaces and conditions, which are completely reliable and which enable to focus entirely on your essential work.

We believe in constant improvement and excellence. As a result, we are continuously striving to develop our products and services and educate our staff, so that we can provide you with the best and most advanced solutions on the market.

TURNKEY SOLUTIONS

COMPLEX LARGE CAPITAL PROJECTS

WITH ADVANCED TECHNOLOGY AND CLEAN ROOMS

We complete your projects with turnkey implementation, i.e. a comprehensive realisation of the project from the initial technical design through the execution of all necessary stages from project documentation to implementation, commissioning, measuring, testing, validating, and warranty and post-warranty servicing.

We provide:

- COMPLEX DELIVERIES OF FACILITIES ON A TURNKEY BASIS
- CLEANROOMS
- LABORATORIES
- INDUSTRIAL PRODUCTION FACILITIES
COMPLIANT TO STRICT ENVIRONMENT AND MEDIA CONDITIONS
- HVAC
- TECHNOLOGICAL MAINS AND PRODUCT DISTRIBUTION SYSTEMS
- PROCESS AND MEDICAL TECHNOLOGIES

We provide:

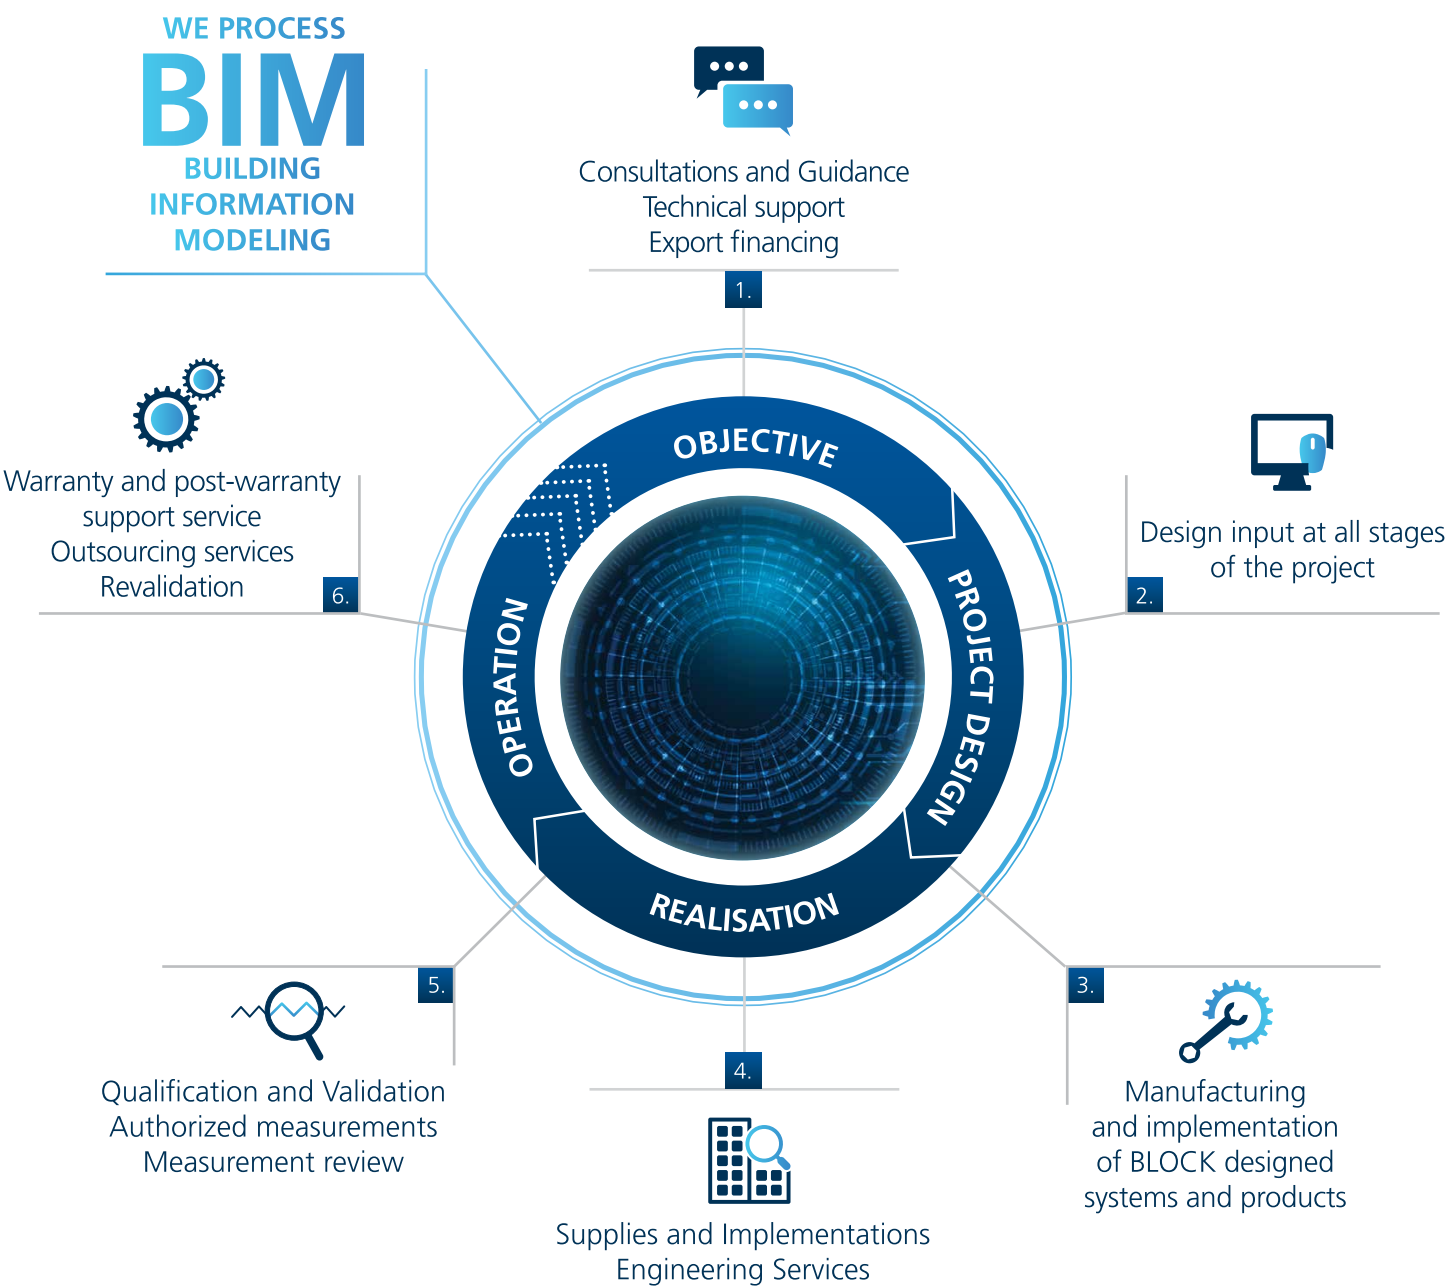

- New constructions
- Refurbishment or modernization of existing structures
- Expansion of production capacities

We operate as a:

- General contractor
- Subcontractor

IN-HOUSE PRODUCTION

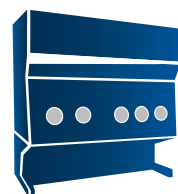

Our implementations are strengthened by our own production program. We have 4 manufacturing facilities – in the Czech Republic, Germany, Slovakia, and Russia. We manufacture components for built-in clean rooms, isolator technology, laboratory furnishings, stainless and technological equipment.

DETAILS ACCENTUATED – Processing details is essential for constructing rooms with high demands on environmental quality.

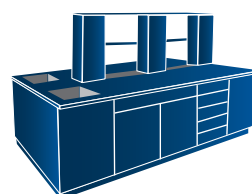

TYPE AND TAILOR-MADE PRODUCTION – Thanks to our in-house production team we are able to provide custom-made options to products that fit your specific project requirements.

THE STRENGTHS OF THE BLOCK® GROUP

We are a well-established group of companies in the field of complex deliveries of cleanrooms and technology in the markets of Central and Eastern Europe.

Experience in implementation of cleanrooms since 1991.

We have our top-notch experts and know-how holders who are able to resolve problems across different sectors of cleanrooms and related products.

We have a specialized production with ability of custom-made supplies in a relatively short time.

We deliver an interesting portfolio of own products.

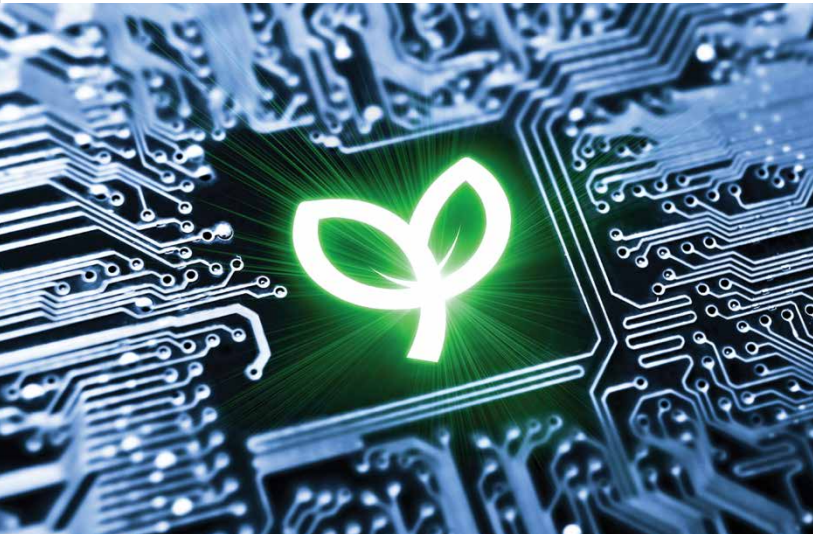

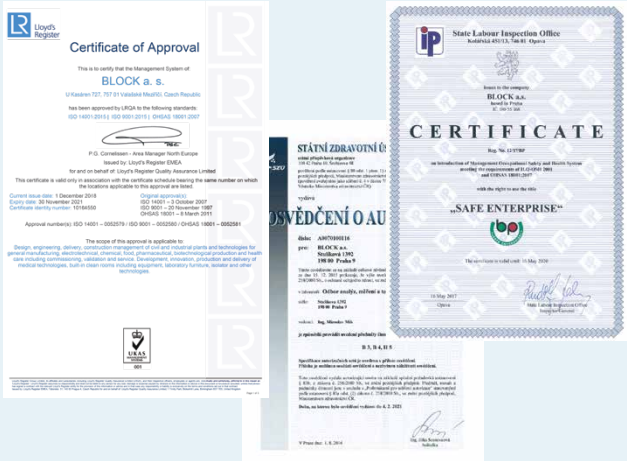

We have a strong brand in the market and a solid customer base.

CERTIFICATION

We have maintained the certifications on corporate processes and offered services, ISO 9001, ISO 14001, and OHSAS 18001. In addition, we possess the certificates related to in-house products and product characteristics. On the basis of these certificates, we can issue Declarations of Conformity.

ENVIRONMENTAL PROTECTION

We continuously maintain and improve processes related to environmental protection. During the realisation of projects we keep the operational costs of our facilities low, take care in the selection of materials and sort waste.

SAFETY FIRST

We observe Occupational Health and Safety policy. We have maintained Safe Enterprise certification since 2004. The fulfilment of these requirements leads to a higher level of risk prevention in the workplace, a more developed culture of occupational safety, enhanced comfort at work and higher productivity.
