HEALTHCARE

Complex provision of medical buildings
and individual medical departments

BLOCK CRS a.s. is a member of BLOCK® Group, a multi-national group of companies with branches in 11 countries of the world and authorised partners in 39 countries. **We bring to life complete, functional, cutting-edge projects with a focus on advanced technology and clean rooms.** Our implementations are strengthened by our in-house production program. In the area of cleanroom implementation we have been operating since 1991. We provide turnkey projects for the healthcare, pharmaceutical, biotechnological, science and research, microelectronics and automotive industries as well as for any other industrial facilities utilizing cleanroom technology.

TURNKEY SOLUTIONS FOR HEALTHCARE

For the healthcare sector we perform complex provision of medical buildings and individual medical departments. We are also a respected supplier of individual operational units, technological units and internal equipment. For implementation of medical departments with clean rooms we produce our own systems - Formedical®, BLOCK® Surgical and Forclean® GMP. The systems consist of inter-compatible construction components and are highly variable and flexible. We can complete your projects with turnkey solutions. We provide complex services and realization in full: Consultancy and Guidance, Securing Financing, Planning Activities, Development and Production, Implementation, Engineering Services, Qualification and Validation and Service.
